

# Bringing Excellence in Quality and CGMP Manufacturing to the World of Viral Vectors

## Our Experience

**30+ Years**

Biologics Development  
and Manufacturing Experience

**21+ Years**

Successful Inspection  
History

**18+ Years**

CGMP Commercial  
Manufacturing

**Zero 483s**

FDA Observations  
Over Last 5 Inspections

**Located in Orange County, California**

PD Labs • QC Labs • AD Labs

CGMP Manufacturing with Fill/Finish

53,000 ft<sup>2</sup> Purpose-Built Facility • Dedicated Warehouse

## Our Capabilities

AAV

Alphavirus

Oncolytic Ad

Oncolytic HSV

Retrovirus

Lentivirus

### Cell Lines

HEK293

293T

BHK-21

PER.C6

MRC5

HeLa

VERO

A549

Sf9

### Process Development

**50L & 500L** Single-Use Bioreactors

Multi-Layer Vessels

ÄKTA Based Chromatography & TFF

Ultracentrifuge

### In-House Analytical Capabilities

### CGMP Manufacturing

#### Train A

Up to **3,000L**  
Suspension Culture or  
Adherent Fixed-Bed  
Bioreactors

#### Train B

Up to **500L**  
Suspension Culture or  
Multi-Layer Vessels for  
Adherent Culture

Master Cell Bank • Master Virus Bank

Semi-Automated Fill-Finish Under Isolator

QA Product Release Testing
